Peak Wellsite Accommodation and Facilities

EXCEPTIONAL SERVICE

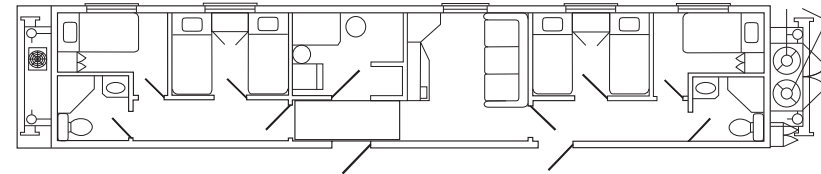

Peak's comprehensive service program ensures effective equipment operation. Our experience and size allow us to deploy equipment as required across western Canada and the United States from strategically located service points.

Peak Energy Services is committed to protecting the environment and maintaining public and employee health and safety throughout our operations.

PEAK is an industry leader in the provision, servicing and transport of portable wellsite accommodation and facilities. Built with superior materials and outfitted with various amenities, our units combine the comforts of home with the practical tools required at the wellsite. Field-tested in harsh environments, our units consistently deliver quality and reliability.

PEAK ACCOMMODATION AND FACILITIES are tailored to your specific needs. Our extensive model line ranges from deluxe, single-ender accommodation and 10-man units to onsite offices, command centers and geologist labs. Accommodation units contain full kitchens, ensuite bathrooms, lounge areas and modern conveniences, such as TVs, DVD players, water coolers, gas BBQs and central vacuums. Other amenities include: central air; washer and dryer; boot warmer tray; 400-gallon water storage tank; geologist stove with fume hood; geologist sink with drain pans, back splash and sample hangers and shower.

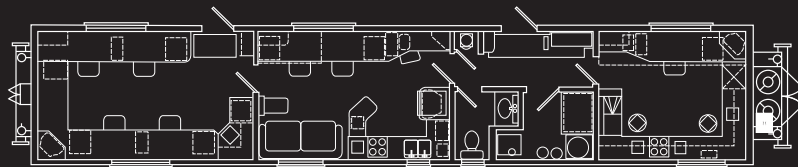

PEAK WELLSITE SLEEPERS

Your team deserves the safety, security and comfort of Peak wellsite sleepers. Our custom-built sleepers and extensive fleet of existing units feature lounge and kitchen areas and all the modern conveniences required to keep your team both comfortable and productive.

PEAK COMMAND CENTERS

Peak dedicated command centers help coordinate wellsite activities. Available in a wide range of sizes (12 x 48 feet - 12 x 60 feet), our units contain all the tools your team needs to remain productive.

Command centers feature large, built-in desks, computer workstations, lounge and kitchen areas and all the modern conveniences required to keep your team both comfortable and productive.

PEAK WELLSITE TRAILERS

Peak's position as an industry leader in portable wellsite facilities helps us understand your team's needs in the field. From portable offices and medical units to geologist/engineer labs and smoking units, Peak can meet any client requirement for onsite services.

Wellsite trailers feature built-in desks, computer workstations, lounge and kitchen areas and all the modern conveniences required to keep your team both comfortable and productive.
